**RE: 2018 Indianapolis Neighborhood Infrastructure Partnership Program
Conditional Award**

Dear Colleen:

As you know, the City of Indianapolis conditionally awarded the Broad Ripple Village Association (BVRA) its proposed project submitted to the 2018 Indianapolis Neighborhood Infrastructure Partnership Program (INIP) for the Broad Ripple Riverwalk Promenade Project. The award was conditional because at the time that BVRA submitted its application, it had not identified a source for the BVRA's required matching funds under the INIP Program.

This correspondence is to inform BVRA that the City will continue to honor the conditional program award to BVRA if the matching funds for the Project can be raised and submitted to the City in 2019 and the BVRA to works with the City to introduce and support a fiscal ordinance with the City-County Council to appropriate the BVRA matching funds for use in 2019 by the Department of Public Works for the Project.

In the event that the matching funds cannot be raised or appropriated in 2019, the conditional award under the 2018 INIP Program will no longer be effective. However, BVRA would be welcome to submit the Project for consideration in future years. Thank you for your good work to make the Broad Ripple area a thriving of Indianapolis neighborhood.

Sincerely,

Daniel J. Parker
Director, Department of Public Works
